

RECEIVED VIA EMAIL ON OCTOBER 11, 2018

Dear Judge Crotty,

I am Casey's first cousin and I am writing on behalf of the Antone family. Casey is my younger cousin and I have known him all his life. All the Antones grew up in the Detroit area, and we were very close family. Early on in life we all knew how smart Casey was and the potential he had to be anything he wanted to be. We had always told him to focus his energy on positive and productive things, and most importantly legal things. Many years have gone by in the past where we have not heard from Casey. We have never stopped missing him or loving him. We were all saddened to hear that he was in trouble after returning back to the United States. We have only recently have been hearing from him and reestablishing our relationship with him. Everybody were so happy to hear from Casey again. But not everybody was ready to welcome him with open arms. We all want the best for Casey. And we want to help him make something of his life. He is going to turn 46 years old at the end of October, 2018. I have personally had told him this is his last chance to become something in life. I would like to ask for your leniency and mercy when sentencing Casey later this month. Prison is not a place that we want to see him, and we would like to see him outside as soon as possible. Thank you very much your Honor.

John Antone
